The screenshot shows the MySQL Workbench interface. The top toolbar includes icons for File, Edit, View, Query, Database, Server, Tools, Scripting, and Help. The 'Schemas' panel on the left shows the 'sys' database selected. The 'Query' window displays a SQL statement: `CREATE TABLE IF NOT EXISTS `MySQL-database-scheme-Zacek-and-Matas`.`warranty``. The 'Action Output' window is open, showing the results of the executed queries. The output is a table with columns: #, Time, Action, Message, and Duration / Fetch. The table contains 22 rows, all showing 'CREATE TABLE IF NOT EXISTS' statements for tables named 'warranty' through 'warranty21'. Each statement is followed by the message '0 row(s) affected' and a duration. The 'Action Output' window is open, showing the results of the executed queries.
